

Hire faster, smarter and better with Anderselite

Anderselite is pleased to offer our video screening service as standard without any additional cost - we believe in continuously adding value whilst providing you with leading recruitment solutions.

In an increasingly competitive market, where skilled candidates are highly sought after and in demand – ensuring your hiring process is more efficient and effective is key to hiring the right candidate for your business. By using video interviewing you can reduce your time-to-hire by up to 60%!

This screening and interviewing method does not replace the traditional face-to-face interview, it simply allows you to choose the best candidates in a much shorter time frame ready for the next stage in the process.

How it works in three easy steps:

Select up to five standard questions for candidates – or if your role is very niche and specific you can create your own

Your consultant will ensure all candidates submitted complete their video screen

Once completed, the candidates' recording will be emailed to you together with their CV – allowing you to make an informed decision about whether to invite them in for a face-to-face interview

That's it – it really is that simple! To discover more, view our demo by clicking the button

Did you know?

According to the CIPD, the average cost of filling a vacancy is £4,000 – higher for more senior roles. It is crucial to get your hiring right first time round and video screening will not only reduce your time-to-hire but ensure a better quality hire.

Discover the benefits of video interviewing!

Reduced time to hire
